

Questions about other Systems

- What are the other Systems that work in conjunction with HaloBeat HRV?

There are not any other “apps” as in iPhone/iPad, there are other applications or systems that work with HaloBeat HRV to greatly improve its ability to assist you in improving your Health.

Magnetic Resonance Therapy (MRT) is provided by the systems sold by Magneceutical Health (the Magnesphere and/or the Halo). HaloBeat HRV works to provide realtime feedback on your HRV as you’re getting MRT treatment sessions in these devices.

HRVCharts.com, this website provides more robust graphing, data and comparison capability than is easily available on your iPhone or iPad.

- How do I enable these other capabilities?
